

Product Specifications

Pouches

Polymer Handcuff TACO®

Our Polymer Handcuff TACO® functions much the same as their nylon and Kydex® counterparts. The durable, proprietary polymer body is laced together with bungee cord for the same versatility as the standard TACO® brand that our customers know and trust. As with the originals, these pouches grip and retain a wide variety of handcuffs.

- Mounts to both MOLLE and belts up to 2" with our HSGI® Universal Clips
- Pop lock configuration orients excess bungee down and out of the way
- Made with waterproof materials (does not waterproof inserted items)
- Universal mounting hole configuration works with most mounting hardware
- Covered by HSGI's® Lifetime Warranty. Made in the USA.
- Fits both chained and hinged cuffs, including ASPs®
- Polymer will hold up to the weight of handcuffs without bending, sagging or deforming
- Polymer does not hold water and won't add weight from rain, humidity or sweat
- Features removable 1" nylon snap closure for additional retention
- Can be mounted to the belt or MOLLE with (2) HSGI® Universal Clips
